Ms. Cynthia Guillen, Section 106 Coordinator
Texas Historical Commission
P.O. Box 12276
Austin, TX 78711-2276

Dear Ms. Guillen:

Re: Historical or Archaeological Records Review
Star Lake Superfund Site
Jefferson Canal County, TX

On behalf of Chevron Environmental Management Company (CEMC), Conestoga-Rovers & Associates (CRA) requests that the Texas Historical Commission review files contained in the office of the Texas Historical Commission to determine if there are records of historical or archaeological sites on the Star Lake Canal Superfund Site defined as the lengths of the Star Lake Canal and Jefferson Canal from their origins to the confluence of Star Lake Canal with the Neches River and the adjacent wetlands. The boundary for the site is shown on attached Figure 1.

Please contact Press Campbell at CRA with any questions.

Yours truly,

CONESTOGA-ROVERS & ASSOCIATES
